Introductory

WE take pleasure in presenting to our patrons the twenty-second volume of the Oakland, Berkeley and Alameda City Directory, feeling assured that it will be found equal if not superior to its predecessors.

Great care has been taken in the preparation of every department of the work; experienced men have been employed, and no expense has been spared in making it as nearly perfect as such a work can be.

The present volume, while not as bulky as its predecessor, has not been curtailed in any particular and contains more names than ever before. Abbreviations have been used for the familiar streets and occupations, thereby saving many a line and giving the work a more compact and neater appearance.

Oakland and adjoining cities have continued to grow, notwithstanding the return of many people to our sister city across the bay since its rebuilding. Others have taken their places, and the prospects were never brighter than they are today for a great and prosperous city. With our Chamber of Commerce nearing a membership of 5,000, a new \$210,000 Y. M. C. A. building, a \$1,000,000 hotel soon to be erected, many substantial business blocks springing up, residences being erected in every part of the city, there is no reason why we should not in the near future have a combined population of 500,000.

POPULATION.

The 1908 Directory contained 76,712 names for Oakland, 16,378 for Berkeley, and 11,522 for Alameda. The present volume contains for Oakland 78,412, Berkeley 16,856, Alameda 11,842, showing an increase in the three cities of 2,496 names. Applying the usual multiple to represent the women and children not enumerated makes the population of Greater Oakland 321,318.

Thanking our patrons for their patronage and for the facilities extended us in furnishing data for the work, we remain,

Respectfully,

POLK-HUSTED DIRECTORY CO.

POSTAL RATES AND CLASSIFICATION OF MAIL MATTER.

Domestic mail matter, that is, mail matter sent in the mails from some postoffice within the United States to some other postoffice within the same, is divided into four classes, as follows:

First-Class Matter.

RATE OF POSTAGE: TWO CENTS FOR EACH OUNCE OR FRACTION THEREOF.

Written matter, namely, letters, postal cards, and all matter wholly or partly in writing, whether sealed or unsealed—except as provided below—and all matter, sealed or otherwise, closed against inspection is of the first class.

RELATIVE TO POSTAL AND POST CARDS.

Post cards issued by the Government may bear written, printed or other additions as follows:

The face of the card may be divided by a vertical line placed approximately one-third of the distance from the left end of the card; the space to the left of the line to be used for a message, etc., but the space to the right for the address only.

Addresses upon postal cards may be either written, printed or affixed thereto, at the option of the sender.

Very thin sheets of paper may be attached to the cards on condition that they completely adhere thereto. Such sheets may bear both writing and printing.

Advertisements, illustrations or writing may appear on the back of the card and on the left third of the face.

Postal cards bearing particles of glass, metal, mica, sand, tinseel, or other substances are unavailable, except when enclosed in envelopes with proper postage

attached, or when treated in such manner as will prevent the objectionable substances from being rubbed off or injuring persons handling the mails.

Post cards must conform to the following conditions:

A post card must be an unfolded piece of cardboard not exceeding 3.9-16 by 5.9-16 inches nor less than 2¾ by 4 inches.

It must be in form and in quality and weight of paper substantially like the Government postal card.

It may be of any color not interfering with a legible address and postmark, and may or may not, at the option of the sender, bear at the top of the face the words "Post Card."

The face of the card may be divided by a vertical line, the left to be used for a message and the right half to be used for the address only.

The permissible additions to postal cards apply also to post cards.

Ornamented or other post cards mailed in sealed envelopes, transparent or otherwise, are subject to postage of the first-class rate; if enclosed in unsealed envelopes they are subject to postage according to the character of the message—at the first-class rate if wholly or partly in writing, or the third class rate if entirely in print. In all cases the postage stamps should be attached to the envelopes; if attached to the enclosures they cannot be recognized in payment of postage.

The same restrictions relative to rendering unavailable postal cards under certain conditions, apply also to post cards.

Pieces of wood, leather, bark, or other material other than paper, purporting to be post cards and bearing no written additions unauthorized by law, when sent in the mails unsealed are chargeable with postage at the fourth-class rate—one cent an ounce or fraction thereof.

Such matter, bearing written additions unauthorized by law, when mailed is subject to postage at the first-class rate—two cents an ounce or fraction thereof.

Second-Class Matter

Second-class matter is of two kinds. First that sent by publishers or news agents; second, that sent by other than publishers or news agents.

RATE OF POSTAGE TO PUBLISHERS AND NEWS AGENTS: ONE CENT PER POUND OR FRACTION THEREOF. TO INDIVIDUALS, ONE CENT FOR EACH FOUR OUNCES OR FRACTION. SECOND CLASS PUBLICATIONS MAILED BY PUBLISHERS OR NEWS AGENTS TO CANADA MUST BE PREPAID AT THE TRANSIENT RATE OF 1c FOR EACH 4 OUNCES WITH STAMPS AFFIXED, EXCEPT THAT DAILY PUBLICATIONS MAY BE MAILED AT 1 CENT A POUND PAID AT THE OFFICE OF MAILING.

Mailable matter of the second-class embraces all newspapers and other periodical publications which are issued at stated intervals and are within the conditions named in the statute.

STATUTORY CHARACTERISTICS OF SECOND-CLASS MATTER

First—It must be regularly issued at stated intervals, as frequently as four times a year, and bear a date of issue and be numbered consecutively.

Second—It must be issued from a known office of publication.

Third—It must be formed of printed paper sheets, without bound leather, cloth or other substitution. Binding such as unglued, printed books for preservation from perishing, publications.

Fourth—It must be circulated and published for the dissemination of information of a public character, or devoted to literature, the sciences, arts, or some special industry and having a legitimate list of subscribers.

What is Permissible to Be Written or Printed—The name and address of the person to whom the matter shall be sent, may figures of subscription book, other printed or written, the printed or written name and address of the publisher or sender, or both, and written or printed words of figures or both, indicating the date on which the subscription to such matter will end, the correction of any typographical error, a mark except written or printed words to designate a word or passage to which is desired to call attention, the words "except copy" or "marked copy," and publishers and news agents may enclose in their publications, bills, receipts and orders for subscription matters.

Third Class—Printed Matter.

RATE OF POSTAGE: ONE CENT FOR EACH TWO OUNCES OR FRACTIONAL PART THEREOF AND MUST BE FULLY PREPAID BY STAMPS AFFIXED.

Printed Matter—Is defined to be the reproduction upon paper by any process except that of manufacturing or by the typewriter, or any words, letters, characters, figures, or images, or of any combination thereof, not having the character of an actual personal correspondence. Books, bills, and orders are included in third-class matter.

Prohibited Items of Publication—Reprints from original published by newspapers or similar publications, pieces, any of magazines, are entitled to post at the same in sealed envelopes as third-class matter, when mailed at the post office window in numbers of at least twenty identical copies.

Proof sheets and corrected proof sheets and manuscript copy accompanying the same are mailed as third-class matter.

Permissible Writings—From Matter of the third class, or upon wrapper or envelope including thereon, the name or name and address thereon, the sender may write his own name, occupation and residence or business address, provided by the word "from," and may make marks other than by written or printed words to call attention to any word or phrase in the text and may correct any typographical error. There may be placed upon blank leaves or cover of any book

or printed matter of the number of pages enclosed, a legitimate addition in writing on envelope.

Fourth Class—Miscellaneous Matter

RATE OF POSTAGE: ONE CENT FOR EACH OUNCE OR FRACTIONAL PART THEREOF

Mailable matter of the fourth class embraces all matter not embraced in the first, second and third class, which is not in its form or nature liable to destroy or deface or otherwise damage the contents of the mail bag or harm the persons of any one engaged in the postal service, and is not above four pounds in weight for each package thereof, except in case of single books weighing in excess of that amount.

Examination—All matter of the fourth class shall be subject to examination.

How Enclosed—Articles of merchandise must be wrapped or enclosed in such a manner that their character can be easily ascertained. In the case of such articles as medicines, powders, tobacco, cigars, fancy soaps and the like, postmasters will accept them when mailed in their original wrappers and so sealed or enclosed as to properly protect the articles, so that each package in its simplest mercantile form or unit of measure may be examined.

Permissible Writing or Printing Upon or with Fourth-Class Matter—With a package of fourth-class matter prepaid at the proper rate for that class, the sender may enclose any mailable third-class matter, and may write upon the wrapper or cover, label, or tag or label accompanying the business address, provided by the word "from," and may make numbers, names or letters for purpose of description, or may print thereon the same and any printed matter not in the nature of a personal correspondence.

Prohibited Mailable—Poisons, inflammable or explosive substances and other substances exuding a bad odor. All noxious liquors, live animals or reptiles, dead writings and stuffed live insects, except bees, comb honey and fruits or vegetable matter liable to decay, also letters, pictures or other articles of obscene or indecent character, sealed or unsealed, letters or writings containing batteries or fraudulent schemes of any kind and letters or other articles upon the outside of which appears mention of a scurrilous, defamatory or threatening character.

Foreign.

THE UNIVERSAL POSTAL UNION

includes nearly all foreign countries. The classification of mail is as follows:

Articles for or from foreign countries except Canada and Mexico are classified as "Letters," "Postcards," "Newspapers," and other printed matter, "Commercial or business papers," and "Patterns or samples."

The rate of postage to the countries and colonies comprising the Universal Postal Union (except Canada and Mexico) are as follows:

HEALD'S

School of Mines and Engineering

SAN FRANCISCO, CALIFORNIA, AND
STOCKTON, CALIFORNIA

CIVIL AND MINING ENGINEERING

This department has been established to meet the demand for thorough instruction in mining and surveying that will be shorter than the university course of four years. The plan adopted, therefore, is to **specialize** so that those who wish can take up one subject only or as many as may be deemed advisable. Six months devoted exclusively to mining engineering will give the average student a full **practical** knowledge of the subject.

Any course or group of studies may be selected.

The **CIVIL ENGINEERING COURSE** includes: Geometry, Trigonometry, Draughting, Strength of Material, Surveying, etc.

The **MINING ENGINEERING COURSE** includes: Assaying, Blowpipe Analysis, Mill Construction, Milling, Mining, Geology, Mineralogy, Economic Geology, Surveying.

The **METALLURGICAL COURSE** includes: Chemistry, Assaying, Metallurgy, Calorifics.

AUTOMOBILE ENGINEERING

For those who desire to receive a practical knowledge of Automobile Engineering, this course provides in the shortest possible time a practical knowledge of any gasoline automobile.

ELECTRICAL ENGINEERING

The study and work in this department cover all the modern applications of electricity. The course is so condensed and divested of superfluities as to bring it within the time limit and means of the average young man who has to make his own way in the world.

The department is thoroughly equipped with Dynamos, Motors, Measuring Instruments, Wiring Appliances, Wheatstone Bridges, Telegraphic Instruments and Appliances, Electro-Medical Apparatus, Galvanic and Storage Batteries of all kinds, Fluoroscopes, X-ray closet and a large laboratory. **Send for Special Catalogue of this School.**

NIGHT SCHOOL

To accommodate a large class of patrons who are unable to attend the day sessions, evening classes are conducted in all the departments the entire year. All the facilities and advantages of the day sessions are provided for these classes; the same studies, the same method, the same practical work. The instruction is individual, and every attention is given to those whose education has been neglected.

Business Houses needing Bookkeepers, Stenographers, Typewriters, Cashiers, Clerks, Foreign Correspondents, Telegraphers, Electricians, or Clerical Labor of any kind can be immediately supplied. Full information regarding any of the courses may be had by addressing
